

CAREER OBJECTIVE

Computer Science graduate with a strong foundation in Data Structures, Algorithms, and core CS concepts, passionate about building scalable web applications using the MERN stack. Possess good problem-solving skills with the ability to design efficient and optimized solutions for real-world challenges. Eager to learn emerging technologies and contribute effectively to innovative software development in a dynamic environment.

EDUCATION

- Lakireddy Bali Reddy College of Engineering – *B.Tech in Computer Science and Engineering*

CGPA: 8.24 / 10

2022 – 2026
- KBN Junior College – *Intermediate*

92%

2019 – 2021

TECHNICAL SKILLS

- Frontend:

JavaScript, React.js
- Backend:

Node.js, Express.js
- Databases:

MongoDB, SQL
- Programming:

Java, Python
- Core:

Data Structures & Algorithms
- AI/ML:

Machine Learning
- Tools:

Git

INTERNSHIPS

- Biztron Softech Ltd. – *MERN Stack Intern*

Jun 2024 – Jul 2024

Developed reusable React components and improved UI responsiveness.

Integrated REST APIs and optimized application performance.

SmartBridge (APSCHE) – *AI & ML Virtual Intern (240 Hours)*

Dec 2024 – May 2025

Learned supervised and unsupervised learning techniques with practical implementation.

Performed data preprocessing, feature engineering, and model evaluation.

Developed an end-to-end machine learning project.

SmartBridge – *Salesforce Developer Intern*

May 2025 – Jul 2025

Developed Lightning Web Components and Apex-based backend logic.

Implemented business workflows using Salesforce platform tools.

PROJECTS

Real-Time Sign Language Recognition using Deep Learning

2025 – 2026

Developed CBAM-enhanced MobileNetV2 model with MediaPipe keypoint fusion.

Achieved 98.8% accuracy with real-time CPU inference (50–100 ms latency).

Designed dual-branch architecture combining visual and geometric features.

AI-Powered Smart Drone System

2025

Processed 50,000+ images for pest detection using computer vision.

Implemented precision spraying system reducing pesticide overuse.

Co-inventor of a published patent.

- **Coupon Distribution Platform (MERN Stack)** **2024**
 - Built full-stack system with secure authentication and fair allocation logic.
- **API Key Management System(MERN Stack)** **2026**
 - Used by developers and teams to securely store, organize, and quickly access API credentials from a single dashboard instead of managing keys across multiple platforms or files
 - It improves productivity, security, and centralized API key management in real-world development workflows.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Salesforce Developer – SmartBridge
- Smart Coder Certification – Smart Interviews
- ServiceNow CSA Certified

ACHIEVEMENTS

- Winner – National Level AI Hackathon (VR Siddhartha College).
- Research paper accepted and presented at ICICT Conference; received proceedings and certification.
- Published patent on AI-based precision pesticide spraying system.
